Year 6 - Preparing for Longer Journeys

Year 6 - What Comes Next?

- The transition to secondary school
- More “independent” travel and longer journeys
 - Walking (as pedestrians)
 - On the bus
 - Cycling

It's the walking and cycling we want to look at.

Year 6 – Can you handle.....

- Distracted drivers
- Being distracted
- The impatient driver behind you when you're cycling
- Longer journeys

11 to 15 Year Old Pedestrians

So, what's a pedestrian?

A person who is walking somewhere. Not in something with wheels, or on a bike.

Like these.....

Look at the police numbers for Nottinghamshire

11 to 15 year old pedestrians are having more serious accidents than other age groups

So why are 11 – 15 Year olds at greater risk?

Have you ever been distracted when you were out walking?

Think of some of the things that distract you or other pedestrians.

You could write a list and see if it matches what we have on the next slide

List of Distractions

- The phone
 - Talking
 - Messaging
 - Texting
 - Music
- With friends
- In a hurry
- Daydreaming

Your thoughts about Drivers

Have you ever thought that some drivers:

- Drive too fast
- Don't care about other road users
- Get distracted by:
 - Their phone
 - Their music
 - Their passengers
 - Their own thoughts (in a hurry or daydreaming)

Scenario: You're at the crossing and it's a green man for you to cross.....

But, you see a driver who is going too fast, or on the phone. He may not stop!

Would you:

- Step out, as it's your right of way
- Wait for them to pass

Or, **you don't see** because you are distracted.

We, your families, your friends, your teachers don't want to hear about a scene like this.

12 to 16 is the vulnerable age for cyclists (it keeps going down as we get older)

If you did Bikeability, you may remember some of the things we taught you:

- Wear a helmet
- Wear bright or hi-vis clothing
- Always “look” before making any manoeuvre

The things we didn't teach you were:

- Wheelies

- Croggies
(or backies)

- Showing off

And, we didn't teach:

- Riding without your helmet
- Joining the road without looking
- Riding on the pavement
- Wearing dark clothing
- Listening to music

No thank You!

We don't want scenes like this. We need "your" help to reduce them!

Longer Journeys

Do we get your help?

Thank you!
