

## West Nottinghamshire College Outreach:

### Suggested Sessions Programmes by Year Group

Even though this pandemic means that we can't come and see you in your own classrooms, do not worry that you won't be getting your Higher Education needs met! Below, we have created programmes suitable for each year group, made up of three sessions that we think you will find useful and enjoy completing.

Simply find your year group, and work through each phase by clicking on the link to the session. 'Why not try...?' is one of our assemblies. In some cases you have a choice of an assembly, but you may complete both if you wish. The 'Want to learn more?' phase is a longer session and 'Push yourself!' is another hour session that will challenge you.

Once you've completed your three suggested sessions, and if you'd like to do some more, please feel free to explore our other sessions recommended for the year above you.

We hope you enjoy going through some of these, and we're looking forward to seeing you soon!
